

Impact Report for Directive Foundation, Inc.'s Free Bible Outreach (FBO) Program

Introduction:

Our mission is to distribute free Bibles across diverse communities, helping to provide the Gospel regardless of socio-economic status. This report provides insights into the estimated household incomes of the locations where Bibles were distributed, aiding understanding of the economic backgrounds of recipients and guiding future distribution efforts.

Key Summary Statistics:

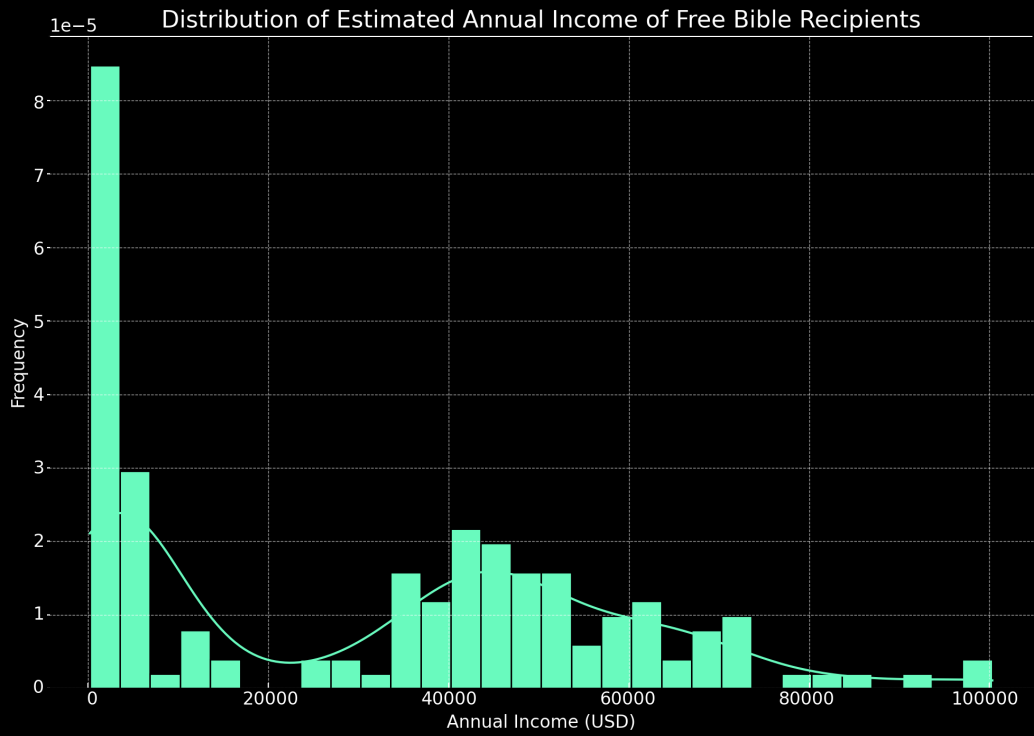

- Total Data Points Analyzed: 152
- Average Estimated Household Income of Recipients: \$31,443
- Estimated Income Range: From as low as \$200 to as high as \$100,315
- Median Household Income: \$36,162

These statistics help us target our efforts effectively and understand the current reach of our program.

Income Distribution Analysis:

The histogram in this report visualizes the diversity in the economic backgrounds of the free Bible recipients. The wide range of incomes indicates our reach to various demographic segments, reflecting the spiritual hunger of communities at different economic levels.

Geographical Distribution:

The geographical heat map indicates broad coverage, with a focus on areas that might benefit most from spiritual support. Our reach extends from urban to rural areas, emphasizing inclusivity in our mission.

Summary + Call to Action:

The data presented reflects our commitment to making a positive impact on communities through free Bible distribution. By the grace of God, we have delivered free NEW Bibles to individuals all over the world, spanning 6 continents. Continued support from our donors is crucial as it enables us to reach more individuals all over the world, and make a significant difference in their lives.

Your contributions are invaluable in helping us expand our reach and continue our mission in new regions.
